"We made significant progress in 2015 consolidating more of our holdings and tax efficiently simplifying our structure" said [Warren Lichtenstein](#), Executive Chairman. "Our accounting remains complex, but we are pleased to report profitable growth in 2015. Our Energy segment faced the significant challenges created by lower energy prices this past year, but our Diversified Industrial and Financial Services segments performed well demonstrating the value of our balance and diversification."

[Lichtenstein](#) continued, "Our consolidation activities included taking several previously public companies that we were invested in private including DGT Holdings Corp., JPS Industries, Inc., API Group plc, and CoSine Communications, Inc., and we have initiated the process for Steel Excel, Inc. to deregister as an SEC registrant. We continued our unit repurchase program acquiring 1,091,175 of our common units for approximately \$19.2 million during the year at prices below book value and below what we believe is intrinsic value."

"We also continue to explore new avenues for growth, for example, our Steel Sports business in Steel Excel is a social impact organization that strives to provide a first-class youth sports experience emphasizing positive experiences and instilling the core values of discipline, teamwork, safety, respect, and integrity. Steel Sports' goal is to have more kids play sports and through the love of the game to play for life. We also want kids to specialize less and to learn life lessons through sports and team work."

"We continue to look for add on acquisitions as well as new platforms, and plan to have an investor day later this year."
